in alternate years Under these circumstances I would recommend that the scholarship be made tenable for one year only in the Fourth Year Class (otherwise called the Senior B.A. Class) & that it be awarded to the student who obtains the first place in Mathematics in the Third Year Class (or Junior B.A. Class) irrespective of any other scholarships he may have obtained, but no one who is able to prosecute his studies without assistance shall be eligible for the scholarship Mr Sundara Rao suggests that if a student selected for the scholarship is not a free student or Govt scholar already, he may be exempted the College fee But this would amount to Government enhancing the value of the scholarship from Rs 5 to Rs 10 I would therefore not recommend such a concession. Under these conditions the scholarship offered by Mr G Sundara Rao on behalf of the subscribers may be accepted with thanks It may be called the Waters Memorial scholarship

Note with the memorandum of Mr. Bhabha and with a draft

Mr. Srinivasa Rao may be consulted as regards the proposals suggested by Mr. Bhabha. Does the amount which Mr. Srinivasa Rao will deposit fetch Rs 60 a year for the payment of the scholarship at Rs 5 per mensem?

24/2/09 24/2

26 2-09

This may be sent to the Comptroller for the information required. The sum of Rs 1500 will not fetch 60 Rs interest per annum if it is invested in the Govt of India Securities. But Mr. Srinivasa Rao promises to pay Rs 500 at the end of a year. The offer may be provisionally accepted.

26/2

G I B—50 000—17-3-07

Serial No

The Savings Bank rate of interest is 3½% per annum If the Rs 1,500/ in question be invested in the Govt of India 3½% Securities, an interest of Rs 52½ will be realized per annum. It is ascertained that Govt of India papers are selling now at a discount of 5% Rs Thus a sum of Rs 75 about Rs 75/ will be saved out of Rs 1,500. If Mr Sreenivasa Rao pays about Rs 220 more and if this also be invested, the total realization will be Rs 60/ But a further sum of Rs 500/ is promised It is a point for consideration how the income in excess of over Rs 60/ a year & the realization for the two years 1909 and 1910 should be utilized

The D of Education in his annual note suggests that the Scholarship should not be paid to one who is able to prosecute his studies without assistance It is not stated how the Scholarship should be disposed of in case the student who obtains the first place in Mathematics in Junior

The I G of Education is of opinion that no one who is able to prosecute his studies without assistance should be elegible for the scholarship - This condition may lead to somewhat arbitrary decisions as it is not always easy to find out whether a student is able to prosecute his studies without assistance or not - It is omitted in the draft order - Generally, a student who has prosecuted his studies for one year in the Junior B A may be expected to be able to continue his studies without assistance for another year in the Senior B A -

According to the order as drafted, the contingency of the scholarship lapsing for want of a student does not arise unless there is no student
